### TOBACCO STOCKS ADVANCE

Continuance of the Upward Move ment Toward Record Prices.

General Market Fairly Strong, But Shows Some Important Declines After a Good Bank Statement. London Exchange Closed Today.

NEW YORK, May 25 .- The Stock Mar ket opened at general advances in com-parison with yesterday's final figures. Exectations of a very strong bank stat ment were commonly held and in addi-tion the rumored settlement of the last large short account in Northern Pacific stock exerted a favorable influence. The London market was closed over the Whit-suntide holidays. Interest was fairly well diversified in

the early dealings although the trading was not in especially large volume. There were, however, heavy dealings in both American Tobacco and Continental Toacco around yesterday's final prices in both stocks.

In the railway list, notably strong fea In the railway list, notably strong leave tures were Missouri Pacific, Atchison. Union Pacific, the Wabash issues, and Southern Railway. The extent of the ad-vances scored in the railway list invited ofit realizing sales after early dealing cored. The local traction stocks wer stronger and more animated than for

Amalgamated Copper was the only active feature of the so-called specialties, and was firm. or the so-called specialities, and was norm. This morning's news contained little that was definite with any bearing upon the market. The trading continued largely professional and for the most part seemed to be based altogether on the matters already cited. The tobacco shares all made new high prices.

The bank statement made a fine show-ing, but the market went off somewhat after it appeared.

The bank statement figures were much better than had been expected generally. There was an increase in cash of more than \$5,000,000, and an increase in the surplus reserve of about \$8,000,000, the reduc-tion of loans aiding in making the favorable showing. The figures of the statemen were as follows: Reserves increased \$7,989,-500, loans decreased \$14,639,500, specie increased \$3,178,100, legals increased \$2,183,500, deposits decreased \$10,500,800, circulation lecreased \$4,200. The increase in cash in week, was somewhat of a surprise.

One sale of Northern Pacific was made today at 200. There are many stories affoat regarding large sums of money lost by important people on the short side of this stock. None of them can be traced back to their foundation. It seems rather abourd to believe that any competent market trader would sell the stock short after the corner was known.

The Southern, preferred, stock looks to be a good purchase in any event, but many people consider the common too high at present unless there is some important reorganization plan to be carried through that would change the status of the company.

The Atchison issues were fairly strong at first but went off later. There is every reason to believe that the Pennsylvania ple are telling the truth when they assert that they are not buying Atchison securities, at least with any idea of gaining curities, at least with any idea of gaining control of the company. It is pointed out that this fact seems to be established by the refusal recently of President Cassatt to allow Vice President Rea to join the Atchison board. The statement of the Atchison Company for April is nearly due and it is understood that it will make an excellent showing.

Judge Gary, Chairman of the United States Steel corporation, has just re-turned from a tour of inspection of the many plants of the Trust. FOR A SURETY COMBINE.

Prominent Companies Likely to Con-

solidate Their Interests. BALTIMORE, May 25.—The success of the surety business in this country during statement suggests that the insiders are trying to make the best showing possible.

American Tobacco advanced to 135, and Continental Tobacco, common, advanced to 136, and to the common advanced to 35, both new high prices. Later in the session there was a decline in each case, which, however, left the level of the group showing a fine net common advanced to 36 and a movement is on foot, it is understood, to unite them. The putting under one head of all the corporations doing a bonding business would obliterate competition, which has caused some fessening in the percentage. sening in the percentage of profits within the last few years, and make possible the reduction of expenses, which are now now than ever before.

The Wabash issues were stronger. great bulk of the bonding business of the pany of Maryland and the United States debenture "B" bonds and the pre- other two are the American Surety Company-of New York, and the Pacific Surety Company, of San Francisco. The American Bonding and Trust Company, of this city, is a comparative newcomer in the field, but its business has developed rapidly, and there is also a bonding company in Pittsburg, besides some smaller concerns elsewhere.

The Fidelity and Deposit Company has recently opened an office in London for the transaction of business in Great Brittain, being the first American compans of its kind to enter that field.

Enquiries have been made regarding the securing of options on the stock of at least one of the Baltimore companies, and it is said that large New York financial interests are behind the plan. The name The story that the Southern is to absorb the Monon is again heard. It now remains to be seen just how much of the not definitely known here. Parties in in-terest are inclined to think that the consummation of the proposed consolidation scheme is distant, though they do not deny its feasibility, nor do they question profits and aid in preventing the growth

the bonding business yesterday expressed the opinion that the success attending the original that the success attenting one of the newer companies had alarmed some of the older corporations, which feared that further competition might develop, and accordingly parties interested were inclined to look with more of less favor upon the plans for a combine.

A Former Citizen Elected a Virginia County Supervisor.

His Platform Unique and to the Point-Death in Brooklyn of Mrs. Carrie Ockershausen - Pimmet Run Swollen by Heavy Rains.

Rezin W. Darby, for many years a resient of Georgetown, and now having a egal residence in Alexandria county, has seen elected county supervisor of the Arington district. He received over 400 rincipal campaign document issued, the ccessful candidate's views were exressed as fellows:

He believes the county ought to get value received for its money expended for labor and material. He believes a commilding roads and that the principal horoughfares should be properly graded and macadamized. He believes that the aborer is worthy of his hire, and that an lay's pay. He believes that an honest, ntelligent, and industrious workman can perform as much work in eight hours as he shiftless man can in twelve. He is not in favor of bonding the county, becuse the people have voted on that question and settled it. In short, he believes that the people of Alexandria county hould not lose sight of the band wagon, out keep step with the great procession of advancement and progress.

Mrs. Carrie Ockershausen, formerly a resident of Georgetown, died yesterday morning at Bracklyn, where she had reided for the past few years. While a esident of Georgetown Mrs. Ockershauen was engaged in the bakery business M Street. The remains will be brought Washington for interment.

Pimmet Run, which empties into the Potomac at the Virginia end of Chain Bridge, is reported to be a rushing tor-rent today. Pimmet Run drains a con-siderable valley behind the range of hills that borders the Potomac, west of the Little Falls.

### A ROW IN THE FLOUR TRUST.

An Independent Company to Be

Formed by Retiring Officials. NEW YORK, May 25.-A new rival is to e the outgrowth of the breach in the flour trust. It was announced yesterday that the two officers of the trust who reigned after a lively row Thursday are to rganize an independent concern.

It was freely admitted yesterday that lively rumpus had taken place. The re-alt was the hasty resignations of George am Ballou, the treasurer, and C. F. hirk, the general manager. There was o formality about their going. The dif-erences, which have been growing for e time, came to an acute crisis, and nd Shirk slammed their desks and left.

They got out and they got out quick,' aid William Brookfield, one of the receivrs of the Hecker-Jones-Jewell Milling ers yesterday. This company is the argest company in the flour trust. It has been in the hands of receivers for four-teen months. "There was a disagreement, Mr. Ballou and Mr. Shirk were not pleased, and they left. I have nothing urther to say about the matter. The empany is getting on in fine shape, and the disagreement has not threatened the progress of settling its affairs. We hope have it in shape for the receivers to

etire before long." Others were as reticent as Mr. Brook-field in talking about the row, though all admitted there had been one. There was

field in talking about the row, though all admitted there had been one. There was a meeting of the Reorganization Committee of the United States Flour Milling Company yesterday afternoon to consider the troubles. The meeting was held at the offices of Brayton Ives, who succeeded Gen. Samuel Thomas at the head of the committee. William Nelson Cromwell, of counsel for the Flour Trust, was present to advise the committee. After the meeting Mr. Cromwell made a statement.

"The reorganization committee retired George William Ballou as secretary of the Reorganization Committee and elected Scott Tremaine to succeed him. Mr. Ballou's resignation from the Hecker-Jones-Jewell Milling Company was made yesterday, I cannot say whether other changes will follow or not. Concerning the differences which led to the resignation of Mr. Ballou and Mr. Shirk I can say nothing. That is a personal matter."

Mr. Ballou has been secretary of the reorganization committee for two years. He was a large stockholder of the Hecker Company. Mr. Ballou and Mr. Shirk yesterday opened large offices in the Broad-Exchange, on Broad Street. A number of clerks were busy straightening out the office furniture and fixtures, which had been moved in hastily. Neither was disposed to talk much about the row. Asked about the report that a new mill was to be the outcome of the difficulty Mr. Ballou said.

"Some friends of Mr. Shirk are going to build a mill for him. He is a succeeded."

be the outcome of the difficulty Mr. Ballou said:

"Some friends of Mr. Shirk are going to build a mill for him. He is a practical mill man. The details of the matter are not yet settled and I cannot say more about the enterprise at this time."

Much talk was caused on the Produce Exchange by the projected new mill and by the resignation of the officers. Shirk is one of the best-known figures on change. He is an energetic young man from the West. Mr. Ballou and Mr. Shirk are largely interested in the American Malting property at Forty-eighth Street and East River. They will build, it was stated yesterday, a grain elevator there with a capacity of 3,000 busheis. It is thought that other disaffected factors in the Flour Trust may join with Shirk and Ballou.
"What Mr. Brookfield says is correct."

mid Ballou.

"What Mr. Brookfield says is correct," aid Mr. Shirk yesterday. "There was a isagreement. He and I were on opposing sides. Mr. Ballou and I left. I do ot care to go into details. We are planing to start a new mill, but there is othing to be given out about that now." The Flour Trust is hereafter to be nown as the Standard Milling Company. ien. Samuel Thomas is president. Not II of the Hecker-Jones-Jewell mills will se included in the reorganization.
